

FLAUS Co-design Facilitator Cheat Sheet

Monash 51358 · Financial Literacy Australia · v2026-06-29

Read scripts word-for-word. Keep this sheet beside you during sessions.

| Before the session

- Consent signed and on file
- Device set up and charged
- Quiet, accessible space
- Water and break plan discussed
- Session Capture form open

| Welcome — read aloud

- Thank you for helping us today.
- There are no right or wrong answers.
- You can stop, take a break, or skip any question at any time.

| Privacy disclosure — read word-for-word

DO NOT PARAPHRASE

Education only. Not personal financial advice, therapy, legal, or tax advice. Not affiliated with or endorsed by the NDIA or NDIS. Not a registered NDIS provider. Whether costs may be claimable depends on your goals, plan, budget, and plan

manager decisions. Outcomes are not guaranteed. Session notes may be stored on servers outside Australia (including Singapore). FLAUS is the data custodian for Monash project 51358.

Do not paraphrase. Includes overseas storage disclosure.

| Contact details

- Record only if participant agreed in privacy step
- Store separately — never in quotes or notes
- If not agreed, leave contact fields blank

| During the session

- Read scripts as written
- Let them explore — do not teach
- Use their exact words in notes

| 10-second wait

When they pause, count to ten silently before you speak.

If still stuck, say: "Show me what you would do."

| Golden rule — do not teach

Show me what you would do.

If you help too much, we cannot use the session data.

| If the participant seems...

Use these exact words:

Confused	That's really helpful — the fact that it's confusing is exactly what we need to know.
Tired	Would you like a break? We can pause or finish up whenever you're ready.
Distressed	We can stop here. You've been really helpful. Do not push further.
Wants to stop	Thank them and end the session. Note where you stopped.

| Quotes and notes

Good: "I would tap here but I am not sure what happens next."

Bad: "Sarah (NDIS 123456) said she would tap here."

Complete facilitator notes after the participant has left.

| What not to put in the form

OK: Observations, ratings, exact quotes — no extra identifiers.

Never: Full names, NDIS numbers, or contact details in quotes.

Data may be stored outside Australia (including Singapore).
